

Theme: Plants

Little ones are constantly growing, learning and evolving every single day of their lives. Encouraging them to develop valuable skills through healthy, fun and fulfilling activities is the aim of this theme. In order to raise a responsible and nature bonded child the activities are directed towards instilling environmental awareness. This theme sets the stage for inculcating various life skills including responsibility, love of nature, creativity, observing and understanding about their immediate environment which will eventually pave the way for discovery and amazement. This is the right time to talk to our children about different types of plants, their importance and providing appropriate care to them to enable our green crusaders to become proactive in taking charge of preserving their ailing environment.

Music and Movement

- Rhymes:
- Jingle bells
- Plants and Trees
- सर्दी आयी
- पेड़ सभी हैं प्यारे प्यारे
- चने का दाना
- Song related to the theme
- Song related to the festival 'Christmas'
- Dance for Christmas assembly.

Month at a Glance

K.G

DECEMBER 2020

- Things we get from plants
- Importance of plants
- Caring and protecting plants
- Grow more plants
- Story of 'Christmas'

Vocabulary for the Month

- Oil
- Perfume
- Wood
- Fuel
- Spices
- Grains
- Pulses
- Rubber

Activity Calendar

December

Water Drops

Once upon a time, there was a bottle of fresh and clean water. Every drop of water in the bottle felt immensely proud of being so clean and pure. Day after day, the drops would congratulate each other on how clean and beautiful they were. That was, until one day when one of the drops got bored with his ultra- clean existence.

He wanted to distance himself from the other drops. When the drop came back all dirty, he turned all the other drops of the bottle dirty, too. They tried to get clean again but could not. They tried everything to shake off the dirtiness. Finally, much later, one of the droplets had an idea. It thought of sharing the problem with the Sun. So, they all got together and went to meet the Sun. The Sun said that he could solve their problem by heating them up, but it would cause them a lot of pain as they would start boiling. The droplets agreed and started boiling with the heat of the Sun. Soon, the droplets regained their old transparency and purity.

Moral: Environmental cleanliness begins with each individual's desire to be clean.

Model good eating practices and encourage your child to develop the lifelong skill of making healthy food choices.	Let your child connect with nature by playing outdoor games such as hide n seek, hopscotch, swings etc. Talk to your child about importance of outdoor play.	Read out stories related to healthy eating habits and encourage your child to eat healthy snacks.	Grow a kitchen garden with your child. Try to arouse their curiosity to learn about different foods.
Talk to your child about the importance of air and water in our life.	Watch a video with your child based on causes of water pollution.	Talk to your child about Air pollution and smog.	Talk to your child about the different steps we can take to save water.
Show and talk to your child about different types of winter clothes worn during winter season.	Sing any Christmas Jingle with your child and help him/her to learn it.	Visit a fruit seller's shop and tell your child the names of winter fruits.	Help your child prepare a fruit chat and enjoy it with all the family members. Tell him/her about the importance of fruits.
Talk to your child about dry fruits and the importance of eating them in winter season	Talk to your child about health tips to be followed during the winter season.	Tell your child about the importance of drinking clean and filtered water.	Help your child to make a New Year greeting card. Ask him/her to wish all your relatives a 'Happy New Year'.

With the continuation of the theme “Plants”, the main aim is to develop naturalistic skills and aesthetic sense among children and sensitizing them towards the conservation of trees for survival of human race. Children will become aware of our dependence on plants as a source of food, shelter and also as an aesthetic beauty in our surroundings. This can be achieved by engaging children in ecological activities such as watering the plants, planting a sapling, sensitizing children towards plants and their need for protection.

Music and Dance

- Rhymes
 - Jingle bells
 - Seed is planted
 - Power of vegetables
 - लाला जी ने केला
 - सर्दी आई
 - सेब
 - Plants & trees
- Song related to the festival ‘Christmas’
