

**Salwan Public School, Gurgaon**

**Session 2020-21**

**Classes III-V**

**Term End – 1 Assessment (Datesheet & Syllabus)**

**Dear Parent**

The unprecedented times of COVID-19, not only unleashed the possibilities and scope of virtual teaching but also virtual assessments. SPS, Gurugram has been following the philosophy of continuous and comprehensive evaluation right from the beginning of the session to provide constant support to its learners so that they feel motivated and confident.

A wide range of assessments like webinars, google forms, quizzes, power point presentations, webchart, mind maps are being conducted on regular basis to help students, teachers and parents understand the progress of the students and provide them with constructive feedback to improve further.

Taking a step further, Term End-I Assessment has been planned for the students from the second week of September onwards. The aim of conducting a detailed assessment is to provide students with the opportunity to showcase their understanding of the concept beyond the limitation of predefined choices which will help us to improve on our strategies in Term II. The details of the same are:

- Term End -I Assessment will be conducted for 60 marks.
- The paper will be divided into two parts; Part A will be subjective (20 marks) and Part B will be objective (40 marks).
- The assessment will also be conducted in two phases: Phase-1 will be subjective and Phase-2 will be objective. (Details will be shared)
- Thorough revision will be taken during the online classes to help students prepare for the same.
- Mock tests will also be taken to help the students and parents understand the procedure.
- PTM for Classes III-V will be conducted in the first week of September to answer parents' queries regarding the same.
- Parents are requested to help the students technically and maintain the sanctity of the assessment.
- For any further query, the parents may write to the class teacher in the Kaizala Group.

*Please do not stress the child as we intend to take non threatening assessment wherein the child gives his/her best and we can analyse the effectiveness of our teaching learning process. We are looking forward to your support as always so as to ensure that the students achieve learning objectives despite these hard times.*

Regards

Team SPS
